

10 Keys to Effective ABA Supervision

- Dr. Ira Heilveil, Ph.D., BCBA-D, QBA

Abstract:

Effective supervision of behavior therapists is critical for high-quality, ethical service delivery and professional growth. This presentation explores 10 essential components of applied behavior analytic supervision, including the art of confrontation, the role of contextual variables, multi-disciplinary collaboration, a common factors approach, and psychological flexibility. Attendees will gain actionable strategies to foster competency and ensure client success through responsive and evidence-based supervisory practices.

About the Speaker:

Dr. Ira Heilveil is a licensed clinical psychologist, board certified behavior analyst and a respected leader in the field of behavioral health. With over four decades of experience, he specializes in evidence-based interventions for individuals with developmental disabilities and autism. As the founder of Autism Learning Partners and co-founder of Hyperion Behavioral Health Center, Dr. Heilveil has dedicated his career to advancing clinical excellence through training, supervision, and innovative program design. Dr. Heilveil is also the author of two books and multiple articles and presentations, as well as the creator of the award-winning documentary "Autism in Love." A passionate advocate for ethical practice and professional development, he brings a wealth of knowledge and practical insights to his work with therapists and organizations alike.
